ORDER :-

In the reference read above, the Chief Engineer (R&B) SH & MD, APRDC,AP, Vijayawada has stated that Yerraguntla - Vemaplli road is an important State Highway connecting Renigunta-Rayalacheruvu road at one end (NH-716) and Kadapa-Pulivendula road at other end. At Km.20/8-10 & 21/0-2, of this road there are 2V of 3.00 m span slab culverts, which were constructed long back to discharge rain water coming into the stream. The abutment and piers of the above culverts are constructed with RR masonry. Because of incessant rains, flash floods in local stream the RR masonry abutments were badly damaged and in collapsible condition. Protection walls of the culverts are also collapsed,scouring of embankment was taken place on U/S and D/s. Reinforcement of the Slabs is exposed and is in damaged condition. As a result of damaged abutments, protection walls and slab, the culverts may collapse at any time.

2. He has also stated that the entire road i.e., Yerraguntla Vempalli road is double lane road having width of carriageway of 7.00m. But, the width of CD works at this location is 6.50m only. As the road is SH, vehicles approaching culverts are met with accidents due to narrow carriageway. He has proposed reconstruction of damaged slab culverts at two locations with IV of 6.0M slab culvert with 12.00m width. Hence he has requested to accord Administrative Sanction for the work "Reconstruction of damaged narrow CD works (2nos) at Km.20/8 & 21/2 of Yerraguntla Vempalli road in YSR District" for Rs. 100.00 Lakhs under Corenet-Road Safety Works.
